Full-stack web developer with a certificate in Full Stack Web Development from Johns Hopkins University. During the time earning the certificate acquired skills in the following: React.js, Node.js, MySQL, MongoDB, HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express.js, Command Line, Git, and more. Also worked on many projects both individually and as part of a team (see Projects). Known to be a team player and passionate about web development.

TECHNICAL SKILLS

- React.js
- Node.js
- MySQL
- MongoDB
- HTML5
- CSS3
- JavaScript
- Express.js
- Command Line
- Git
- and more...

PROJECTS

Employee Directory

GitHub Repository: <https://github.com/Emmerz6949/employee-directory>

Deployed Site: <https://emmerz6949.github.io/employee-directory/>

Description: An employee directory React application that allows users to sort the employees alphabetically and reverse alphabetically by first name via the up and down arrow heads beside the word "Name", and to filter the employees by first name, last name, or email via the search bar.

Workout Tracker

GitHub Repository: <https://github.com/Emmerz6949/workout-tracker>

Deployed Site: <https://frozen-plains-71922.herokuapp.com/>

Description: A workout tracker application that lets users start a new workout or continue the most recent previous workout via storing and retrieving the workout information in the MongoDB "workouts" collection of the "workout" database. Users can use the "Dashboard" tab to view line graphs and pie charts of all the workout information submitted so far.

REÇQUE

GitHub Repository: <https://github.com/Emmerz6949/recipeproject>

Deployed Site: <https://emmerz6949.github.io/recipeproject/>

Description: A recipe application that allows users to search for recipes based on allergy or dietary restriction. This was a team project; I was responsible for utilizing JavaScript and jQuery to create click events that swap assets and store data into local storage.

PROFESSIONAL EXPERIENCE

Pen Boutique
Customer Service Representative

April 2019 – Present
Columbia, Maryland

- Handled and responded to inbound and outbound calls, chats, and tickets.
